

1-YEAR HIP FOLLOW-UP

It is important to review the status of your hip implant(s) during an office visit at six weeks, one year, two years, and every other year postoperatively thereafter for your safety even though you are feeling great. Long distance follow-up evaluations for out-of- state patients are fine. We would like to ask you to complete the following evaluation protocol.

- 1) *Hip questionnaire:* We keep track of each joint separately in our database. Therefore, I would like to request that you fill out a self rating form for **EACH** hip, even if both are identical. Please send to us.
- 2) *Physical Therapy:*
 - Add your name to the physical therapy evaluation request
 - Give the order and physical exam form to your physical therapist
 - Send the results to us
- 3) *Hip X-Ray:*
 - Add your name to the x-ray request
 - Have the x-ray of your hip(s) done at your local hospital or radiologist and request a CD copy of this x-ray be sent to us

As soon as we receive all of the above, I will review them and send you a written response. If you prefer to travel here for an office visit for evaluation, please call our appointment line to arrange this (803) 256-4107 (routine office charges will apply). If you are having significant problems with your hip, I will need to see you in the office for complete examination to best diagnose it.

Thank you for your attention to this matter. If you have any questions, please contact us for assistance.

Dear Physical Therapist:

The person presenting this form has had a hip surface replacement performed by Dr. Thomas P. Gross _____ weeks/years ago. We are asking that you objectively evaluate his/her hip and send me a report. If the patient is less than one year postop, the hip cannot be pushed into extreme flexion, adduction and internal rotation. (See form). Please record the range of motion that can be achieved by gentle examination in this case.

If the patient is approximately six weeks postop, please review and assist them with my Phase II Hip Exercise Program. The patient has been instructed to bring this with him/her in this situation.

Thomas P. Gross M.D

Please FAX to: 803-933-6339 and give the patient a copy.
